

TRAINING & PILOT SUPPLIES

Product Catalog

2023 Americas

INDEX

Welcome! Let's go fly.

Our goal is to help you be your best. We take an application-oriented approach to training, which incorporates real-world scenarios and examples so you'll discover the why and how of aeronautical concepts—not just the facts needed to pass a test.

Jeppesen provides the most comprehensive training materials on the market, and they're integrated into aviation training systems that include books, e-books and online ground schools to serve different learning styles.

We offer a wide range of courseware topics covering pilot, maintenance technician and dispatch. We've got you covered with high-quality materials for initial certification preparation, test preparation, instructor support and an extensive aviation library of reference materials.

Trust Jeppesen to provide you with a solid foundation of knowledge for each step of your aviation journey.

TRAINING

Pilot Courseware

Jeppesen can take you as far as you want to go with your pilot training, whether you're just starting out or seeking advanced ratings and/or certification. The comprehensive pilot courseware includes high-quality multimedia training materials that are specifically designed to help you master the key concepts and information needed to pilot aircraft confidently and safely at every level of certification, from private pilot and instrument/commercial to CFI and beyond.

Jeppesen's integrated multimedia system of training tools includes textbooks, workbooks, computer-based training and supplemental reference materials—all with up-to-the-minute information, large four-color images, detailed diagrams and dynamic graphics.

Used individually or in combination, these training materials will give you an ideal foundation for your educational needs both today and throughout your piloting future. Here are just a few of the exceptional qualities that make Jeppesen's pilot courseware the standard of excellence for students and instructors worldwide—and the ideal choice for your training needs.

Comprehensive—Jeppesen's complete system of training materials allows you to advance as far as you wish, from private pilot through CFI to multi-engine. Plus, the building-block approach to each level of training materials makes it easy for you to progress from one level to the next.

Accurate—Jeppesen maintains the most aggressive revision schedule in the industry, ensuring the most accurate and up-to-date information available.

Affordable—Jeppesen provides bundled pilot training kits that address your complete core curriculum requirements—at a fraction of the cost of purchasing these materials separately.

Multimedia—At Jeppesen, we realize that everyone learns differently. You'll find a wide range of options that allow you to select the resources that best suit your learning preferences, whether you prefer textbooks or computer-based-training.

Find Jeppesen e-books at [Shop.Jeppesen.com](https://shop.jeppesen.com)

Books are available for download on just about any device, including Android™, PC as well as iPads®, iPhones®, Macs or other Apple® devices.

Jeppesen e-books are electronic versions of traditional textbooks and reference materials that can be viewed on computers and other devices. Depending on the device you are using, Jeppesen e-books provide many additional features that traditional paper books do not offer.

E-book features:

- Ability to quickly jump to valuable information
- Easily bookmark pages and take notes
- Easy finger-swipe navigation
- Direct linking to chapters within each book is provided through the Table of Contents
- Once downloaded there is no need for internet connectivity to read the book on your device

Visit [Shop.Jeppesen.com](https://shop.jeppesen.com) for Jeppesen e-books today!

Private Pilot E-book Kit (Part 141 or 61)

The Private Pilot E-book Kit provides all the training books found in the paper FAR Part 141 or 61 kits at a 15% discount, and in a convenient digital format for training anytime, anywhere. The FAA-accepted E-books are designed to meet all Part 141 and 61 requirements for obtaining a private pilot certificate.

Private Pilot Online

 **MOBILE DEVICE COMPATIBLE**

Private Pilot Online takes Jeppesen's award-winning materials and provides them to you directly over the web. Through a combination of text, graphics, video and audio, we bring the content to life. The product is designed to be engaging and memorable so that you retain the information on your tests and in the air!

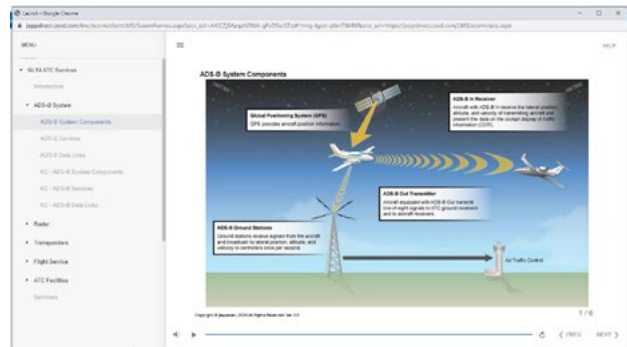

Recent improvements—Jeppesen online courses are now compatible with most common mobile devices so you can learn on-the-go, anytime, anywhere. And a new user interface is simple, easy-to-use and provides step-by-step guidance for students throughout the course.

Interactive lessons—True interactivity in the lessons will engage you. You're not merely clicking the start and stop button on a video.

Instructional concepts—Sound instructional design concepts are used to design the courseware. Jeppesen developed the learning objectives so you master the skills to help you become a safe and competent pilot.

Track your progress—The Learning Management System tracks your completions and test results down to each question, and assists you by identifying your strengths and weaknesses.

Self-testing—Each lesson has multiple self-testing opportunities, allowing you to independently track your progress and comprehension.

Differences between Part 61 and Part 141

online courses—Students must choose either the Part 61 or the Part 141 course based on which type of flight training program they are enrolled in. Please contact your school or flight instructor for verification. The course contents are the same however the difference is the endorsement certificate for the FAA knowledge exam. Part 61 course provides students with an endorsement certificate for FAA written knowledge exam. Part 141 course does NOT provide students with an endorsement certificate, rather students will obtain their logbook endorsement from their Part 141 flight instructor to take the FAA written knowledge exam.

Access duration—The Jeppesen online courses are accessible for a period of 12-months from purchase date.

Item Number: 10025785
Price: \$239.00 (12-month access)

Private Pilot Courseware

Private Pilot Textbook/e-book

Jeppesen's completely revised and updated Private Pilot Textbook is an integral component of the Private Pilot training system. Its organization and colorful presentation help students learn quickly from the start. Discovery insets expand on important ideas and concepts found in the text. Key terms are highlighted for quick review; and each chapter closes with a summary checklist and questions to reinforce the learning process.

Instrument Pilot Online & Commercial Pilot Online

MOBILE DEVICE COMPATIBLE

Jeppesen's years of expertise have culminated in Instrument Pilot Online and Commercial Pilot Online. These courses will help you pass the FAA written knowledge exam and build a foundation for a lifetime of successful, enjoyable flying. They can be used as self-study or at your local flight school/university for both Part 61 and 141 training.

Recent improvements—Jeppesen online courses are now compatible with most common mobile devices so you can learn on-the-go, anytime, anywhere. And a new user interface is simple, easy-to-use and provides step-by-step guidance for students throughout the course.

A new approach to learning—All of Jeppesen's online courses rely on a number of media, including video, audio and text, so they are interactive and informative.

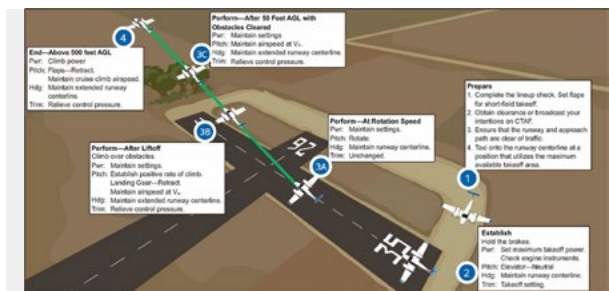

Building blocks—An easy-to-use syllabus shows you everything you're expected to know. The logical building-block approach allows you to easily determine which concepts you'll need to master and how they integrate into the larger picture.

Put yourself to the test—Independently track your progress with both graded and ungraded tests that identify your strengths and weaknesses. Sample FAA exam questions are presented in context so you'll learn how to answer them, and why the information is important.

Differences between Part 61 and Part 141 online courses (Instrument Pilot Online)–

Students must choose either the Part 61 or the Part 141 course based on which type of flight training program they are enrolled in. Please contact your school or flight instructor for verification. The course contents are the same however the difference is the endorsement certificate for the FAA knowledge exam. Part 61 course provides students with an endorsement certificate for FAA written knowledge exam. Part 141 course does NOT provide students with an endorsement certificate, rather students will obtain their logbook endorsement from their Part 141 flight instructor to take the FAA written knowledge exam.

Access duration—The Jeppesen online courses are accessible for a period of 12-months from purchase date.

Boeing Learning Solutions

An integrated approach—Boeing Learning Solutions modules are being developed to deliver an integrated system combining what have traditionally been stand-alone FAA training products and content such as course syllabi, textbooks, online courses, student test questions, flight maneuvers, oral and practical exam preparation, school stage and final exams, flight record folders and inflight grading app, and much more. Boeing Learning Solutions is customizable and flexible, and can deliver content via an independent learning environment, computer led training courses and instructor-led courseware.

With the release of future FAA-based modules, Boeing Learning Solutions will provide a single source platform to deliver a robust learning system for individuals as well as Aviation or Maintenance Training Organizations (ATO/MTO).

Boeing Learning Solutions provides offline availability on your Windows, MacOS or iOS devices. It's scalable for a wide range of operations, including global organizations, and is well-suited to remote areas thanks to the offline functionality.

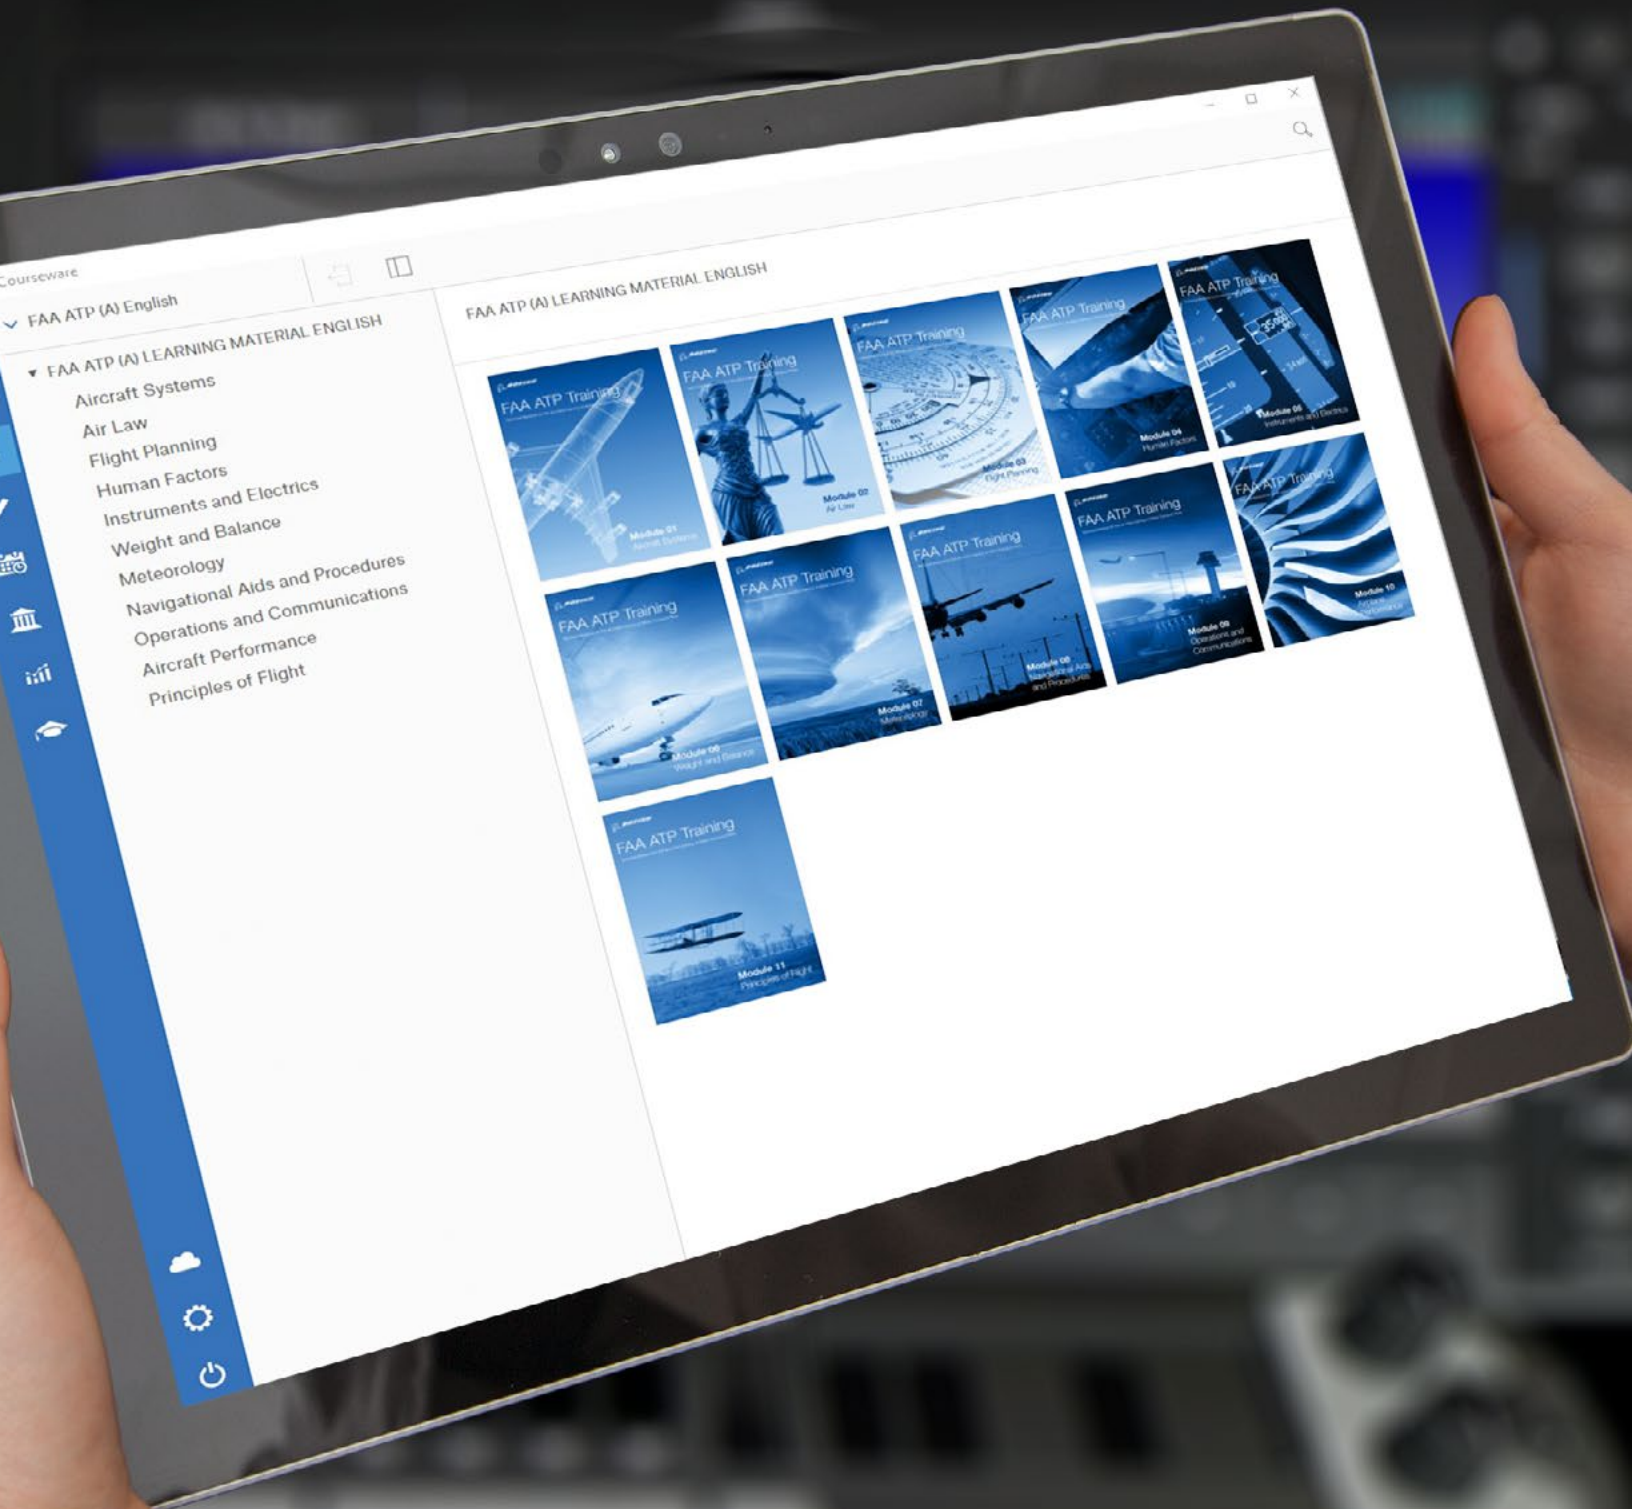

Key benefits include:

- Modular but integrated design
- Engaging learning materials
- High quality animation elements
- Cloud-based device synchronization
- Offline availability/remote workplace
- Independent question trainer and exam preparation

Please contact the education and training sales staff for additional information.

FAA Part 147 Maintenance Courseware

Boeing forecasts the need for technicians to be 610,000 over the next 20 years, so look into this exciting career today!

New Technicians by Region

North America	134,000
Asia Pacific	126,000
China	124,000
Europe	120,000
Middle East	50,000
Latin America	35,000
Russia and Central Asia*	
Africa	21,000
World Total	610,000

*Pilot and Technician Outlook 2022 does not include a forecast for new personnel in Russia due to sanctions against aircraft exports.

A&P Technician General Textbook/e-book

This thoroughly revised, expanded and updated edition of the General Textbook fully integrates practical A&P general skills with the theory and basis of the A&P general topic areas. It includes a wealth of illustrations and examples to help you get the most from your study efforts. Each section includes comprehensive exercises designed to help you check your understanding of the material. The textbook introduces you to the fundamental concepts, terms and procedures that provide a foundation for your maintenance training. Approximately 920 pages.

e-book Number: 10249183
e-book Price: \$56.98

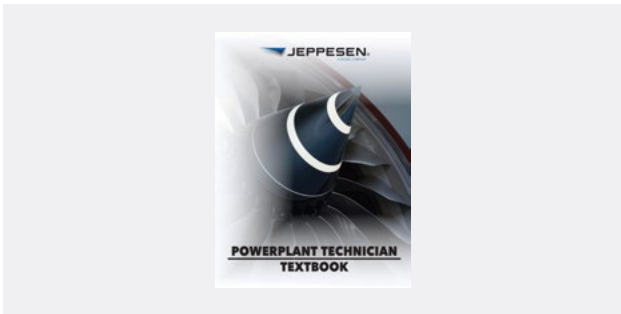

Print Number: 10002467
Print Price: \$69.96

A&P Technician General Test Guide with Oral & Practical Study Guide

An excellent, fully integrated, two-in-one tool! Includes an extensive database of FAA general subject test questions, answers and explanations that are cross-referenced to the A&P General Textbook. Also includes the latest oral and practical test questions and answers. 272 pages.

Print Number: 10002000
Print Price: \$19.96

A&P Technician Powerplant Textbook/e-book

Jeppesen’s Powerplant Textbook is the most comprehensive aviation powerplant reference available, exceeding FAR Part 147 standards. Includes over 400 illustrations, with more than 140 color drawings of turbine and reciprocating engine cross-sections, instruments and control systems. Arranged in a logical, practical order, with emphasis on “hands-on” learning. Includes two new chapters on airworthiness inspections and engine troubleshooting. Also includes new information on diesel engine theory and design. 672 pages.

e-book Number: 10249629
e-book Price: \$56.98

Print Number: 10002511
Print Price: \$69.96

A&P Technician Powerplant Test Guide with Oral & Practical Study Guide

Contains questions covering the powerplant section of aviation technician training. Completely integrated with the A&P Powerplant Textbook by chapter and subsection. 344 pages.

Print Number: 10002001
Print Price: \$19.96

A&P Technician Airframe Textbook/e-book

The most up-to-date airframe textbook available. Written to meet FAR Part 147 standards. Updated information includes rotorcraft structures, winglets, T-tails, flight control balancing, expanded hydraulic and pneumatic system sections, landing gear safety devices and maintenance, nose wheel steering system, fire detection systems, electronic instruments, electronic systems monitoring displays, storm scope systems, and installation of communication and navigation equipment. Color illustrations, charts and diagrams. 876 pages.

e-book Number: 10249628
e-book Price: \$56.98

Print Number: 10002510
Print Price: \$69.96

A&P Technician Airframe Test Guide with Oral & Practical Study Guide

PILOT SUPPLIES

Jeppesen offers a wide range of pilot supplies, including manual aviation computers, plotters and logbooks, all of which set the industry standard for accuracy, quality and dependability. We also offer a variety of valuable pilot accessories as well as a full range of stylish pilot bags, flight cases and other supplies that can help keep you fully prepared and organized, both on the ground and in the air. Be sure to check out Jeppesen's full line of IFR and VFR Manual accessories, from our high-quality binders to our durable paper for printing out your Jeppesen charts.

General Supplies

JeppShades

New and Improved

These newly designed and manufactured IFR flip-up training glasses replace those bulky, hard-to-use instrument training hoods. With the improved 2023 design, JeppShades allow for better student/instructor interaction. The cockpit-proven design works conveniently under headsets, and the Velcro adjusting strap reduces pressure on ears and temples. The JeppShades flip-up lens allows convenient IFR/VFR flight transition, and the high quality polycarbonate lens is impact-resistant.

Item Number: _____ 10011864
Price: _____ \$29.96

CR-3 Circular Computer 6" diameter

New and improved for quality and readability, the CR-3 high-and low-speed computer does everything the E6B style computers do plus solving for wind triangle problems, polar grid navigation, pressure pattern flying, and more.

Student CSG (E6-B)

Full function, full size. Perfect for the budget-conscious student. Constructed of rugged plasticized composite material, it conforms to the instructions and examples in Jeppesen manuals, workbooks and audiovisual programs.

Metal CSG (E6-B)

Reengineered to provide higher quality, durability and accuracy, plus a new non-glare Teflon coating for smoother operation. The heavy-duty metal construction assures long life of solving low- and high-speed problems. Complete with instruction manual and carrying case.

Plotters

The most accurate way to get there and back.

PV-5 IFR Enroute Plotter

It's almost like having an IFR instructor in the cockpit. Designed for use with all Jeppesen enroute charts. Easy-to-use, it shows standard and non-standard holding pattern entries and provides kilometer to nautical mile conversions.

(Size: 3 3/16" x 8 1/2")

PJ-1 Rotating Azimuth

Route planning made simple. One twist of the azimuth allows you to measure the true course or to determine the magnetic course. The PJ-1 also includes scales for sectional terminal area and WAC charts in statute and nautical miles.

(Size: 3 1/4" x 13"; 3 3/8" diam.)

PN-1 Navigation Plotter

The classic clear background allows easy identification of WAC and sectional chart scales. The laminated design protects visibility of printed scales for years to come. The dual scales are calibrated in statute and nautical miles.

(Size: 12 1/4" x 4")

Item Number: 10009534
Price: \$13.96

Item Number: 10009524
Price: \$17.96

Pilot Bags

Book/Student Bag

A great multi-purpose bag for the student pilot or mechanic. Features include seven exterior pockets, three small exterior pockets for pens or small flashlights, an interior key clip, removable shoulder strap, double zipper opening and reinforced base. Each non-padded bag is made from heavy-duty 600D polyester with a PVC coating on one side for added water resistance, strength, abrasion resistance and durability. (Size: 11" x 5½" x 16")

The Aviator Bag

Jeppesen's Aviator Bag offers a convenient, compact choice. It features one detachable headset bag and one detachable transceiver/GPS bag along with a large exterior zippered pocket (9½" x 14" x 2"). Each Aviator Bag is fully padded and made from heavy-duty 1680D-Denier Ballistic nylon, making it water resistant, strong, abrasion resistant and extremely durable. (Size including exterior pockets and headset bag: 11" x 12" x 15")

Item Number: 10001301
Price: \$39.96

Item Number: 10001854
Price: \$88.96

The Captain Bag

This improved design includes heavier-duty 1680 denier polyester with a PVC coating on one side for added water resistance. Combined with new heavy duty self-repairing YKK zippers and double stitching for superior strength, abrasion resistance and durability. Features two detachable headset bags and one detachable transceiver/ GPS bag with a 4-way adjustable divider that holds up to six Jeppesen 2" binders, a large exterior zippered pocket big enough for a laptop computer or tablet PC (10" x 14" x 2"), and two exterior zippered storage pockets (11½" x 6½" x 2½"). (Size including exterior pockets and headset bags: 12" x 24" x 13")

Item Number: 10001303
Price: \$130.00

Kneeboards and Logbooks

IFR Three-Ring Trifold Kneeboard with Clipboard

This kneeboard is great for organizing and holding approach charts. It includes an aluminum clipboard with newly updated IFR flight information printed on the face. It also features three approach chart pockets, three collapsible and removable rings sewn into the reinforced spine, and an elastic holder for a pen or penlight. Additionally, the foam-cradled back allows for added comfort and leg positioning. Each kneeboard includes a leg strap that allows you to use the clipboard independent of the kneeboard. Designed for superior strength, abrasion resistance and durability. Free set of universal chart pockets included! (Size: 10" x 20" open.)

Item Number: 10001298
Price: \$49.96

VFR Trifold Kneeboard with Clipboard

Jeppesen's VFR Trifold Kneeboard places information at your fingertips. It organizes and holds charts, flight computers/plotters, flashlight, pen, pilot notes and more. An elastic leg strap sewn to the kneeboard holds this unit comfortably in place with a Velcro closure. Additionally, the foam-cradled back allows for added comfort and leg positioning. The metal clipboard includes valuable information for your VFR and IFR flight needs. Also includes a leg strap that allows you to use the clipboard independent of the kneeboard. Designed for superior strength, abrasion resistance and durability. (Size: 21" x 11½" open.)

Item Number: 10001306
Price: \$48.96

Professional European Pilot Logbook

This all-new version of Jeppesen’s most popular professional logbook complies with JAR regulations for logging flight time in Europe. Plus, it includes simplified pilot and aircraft annual summaries that can handle more than 10 years of data. This quality Jeppesen product will be a great addition to your flight bag. Made with archival paper for long-term record keeping.
(Size: 6 ¾” x 11 ¼”)

Item Number: _____ 10002140
Price: _____ \$37.96

Professional Pilot Logbook

Aviation’s most popular professional logbook can handle more than 10 years of data. It includes simplified pilot and aircraft annual summaries. The quality construction matches the professional look of the Airway Manual binders. Made with archival paper for long-term record keeping.
(Size: 6¾” x 11¼”)

Item Number: _____ 10001795
Price: _____ \$31.96

Pilot Logbook

Designed for lifetime durability, this logbook offers large flight-time category spaces arranged according to FAA regulations. It includes space for 520 flight entries. The Jeppesen Pilot Logbook has become the industry standard. It’s printed on “easy-eye” green pages that resist bleed-through. It’s also bound with a high-quality, scuff-resistant cover. Made with archival paper.
(Size: 8” x 5¼”)

Item Number: _____ 10001315
Price: _____ \$15.96

Binders

Functional and durable, our binders are meant to protect and last. Both Jeppesen's Premium Leather Binder, made of 100% top-grain cowhide, and our Standard Leather Binder, made of 100% bonded leather, are finely crafted with steel hinges and safety locks to secure the rings. The Premium and Standard Leather Binders include "stay-open" bars for your convenience. The Superior Plastic Binder offers an economical alternative for the protection of your Jeppesen charts. All binders available in brown only.

Premium Leather Binder

Top-grain cowhide, 2-inch rings, stay-open bar.

Item Number: 10001084
 Price: \$102.00

Superior Plastic Binder

Superior plastic, 2-inch rings, no stay-open bar.

Item Number: 10001085
 Price: \$41.00

Chartabs

Quick reference tabs labeled “Departure,” “Destination” and “Alternate.” Plastic, color coded. Set of 3

Item Number: 10001453
Price: \$9.00

Multitabs

Make your binder work like you do. Write your own labels to separate the contents. Erasable, reusable. Lines for notes. Set of 13.

Item Number: 10001458
Price: \$9.00

Multi-Purpose Chart Printer Paper

Print your electronic charts! Made for Jeppesen binders. Perforated, 7-hole (center and edge), 500 letter-size sheets (5½” x 8½”). Create and print from your software.

Item Number: 10011108
Price: \$9.00

JeppView Printer Paper for Jeppesen Binders

Made specifically for our binders.

Item Number: 10011107
Price: \$9.00

Approach Chart Protector

Keep your most frequently used approach charts in top-notch condition with our easy-erase protectors. Accepts marks from almost any non-permanent writing instrument. Set of 10.

Item Number: 10001459
Price: \$8.00

Pilot Notes

Handy for flight planning, enroute notes. Fits Jeppesen binders. Package of 500 sheets.

Lined Pilot Notes
Item Number: 10011878
Price: \$8.00

Unlined Pilot Notes
Item Number: 10011879
Price: \$8.00

DISPATCHER CERTIFICATION TRAINING

Your dispatch career is waiting.

Jeppesen has a long and proven track record in providing dispatcher certification training, and helping prepare students worldwide to take the written, oral and practical exams.

Upon successful completion of the course, you will have the background necessary to earn the FAA dispatcher certificate, or a license issued through other National Aviation Administrations (NAAs).

- The Jeppesen Dispatcher course provides a solid career opportunity, a backup career for pilots, and technical rounding for aviation managers.
- Proficiency in many subjects, including: meteorology, air traffic control, navigation principles and systems, aircraft systems/performance, international operations, dispatch resource management, practical dispatching and more.
- Familiarization with operation control/flight dispatch software tools such as flight planning systems, crew scheduling, airport analysis, NavData, Electronic Flight Bag (EFB) and other related airline products.
- Virtual Learning Program (VLP) option for home study with regularly scheduled instructor led training held over the internet.

Jeppesen also offers a variety of other [specialized courses](#) that cover topics like airspace, charts, ICAO English, flight planning and more.

Learn more at jeppesen.com/dispatcher or contact us: jeppesenacademy@boeing.com or +1.303.328.4423.

Airway Manual Priority Handling

Jeppesen will make every effort to ship your new Airway Manual Service or your Trip Kit orders within two (2) business days. Please allow for these two (2) days plus time for shipping, which is dependent on the shipping method you choose. Should you require faster service, we can prioritize your order and ship within 24 hours, upon request. Please understand that in the case of orders for multiple quantities of the same Airway Manual Service, we cannot be assured of having the necessary quantities of the service pre-assembled and in stock. However, we will make every attempt to work within our capabilities and meet your needs. Special Priority Service must be shipped by an expedited method, to a physical address.

Jeppesen Airway Manual service priority fees are \$25.00 or 25,00 € plus shipping and handling.

Revision Service Surcharge

Airway Manual and NavData revision service prices do not include airmail surcharges for revision delivery outside the United States and the European Union. Please contact Jeppesen for airmail surcharge prices when ordering Airway Manual Services to be delivered outside the U.S. and the European Union.

Jeppesen Online

For additional information on Jeppesen products and services, please visit [Shop.Jeppesen.com](https://shop.jeppesen.com). If you haven't done so already, consider registering online. Not only can you order Jeppesen's products and services, but registered members enjoy additional benefits:

- Links to revision letters, chart NOTAMs and NavData downloads (some services for subscribers only)
- Ability to check your order history and track your order shipments

Eastern/Western Hemisphere

Where reference is made in the catalog to geographical areas by hemisphere, this map will help you identify the Jeppesen office that will serve you. The Eastern Hemisphere is highlighted in green. Customers in the Eastern Hemisphere are served from our office in Germany. The Western Hemisphere is highlighted in purple. Customers in the Western Hemisphere are served from our office in Denver, Colorado.
